18 October 1978

Keith Raffel
Senate Select Committee on Intelligence
New Senate Office Building
Washington, D.C.

SSCI

Dear Keith:

At our latest meeting, on 22 September 1978, to discuss Title IV of S.2525, we agreed to provide you with suggested language and additional justification regarding certain proposed amendments to that Title. [] has dealt with the question of CIA jurisdiction over its own facilities (proposed to be added to Section 421(h)) and with firearms authority (in Section 421(i)). [] has reviewed the necessity for retaining specific authority to rent realty (in Section 421(a)(5)) and to pay library association dues (in Section 421(a)(14)) and the need to add language to Section 423 clarifying the status of proprietary employees. Rather than attempting to recast their conclusions, I have enclosed copies of their memoranda for your use.

STAT

In addition, I provided Dave Shaw at the end of the 22 September meeting with a copy of a memorandum from [] regarding the justification for a new Section 421(a)(5) authorizing Economy Act type transactions. Also, you and I have agreed the definition of "United States" included in Section 441(a)(3) for allowance purposes should continue to be broad for the time being. Finally, I have been advised that the health service provision in Section 421(a)(11) is inadequate for this Agency's purposes and that there should be included references to Sections 1156 through 1159 of Title 22 authorizing certain State Department medical services which also must be provided by CIA.

STAT

We will, of course, be happy to discuss further with you these or any other matters relating to Title IV.

Very truly yours,

[]

Assistant General Counsel
